PROFILE

33 years old computer engineer with strong practical skills in website development and linux server administration. Currently searching for a position in Perth, Australia.

WORK EXPERIENCE

IT Consultant Freelance

Feb 2017 - NOW

As a freelancer I've helped many companies to design and implement their complete digital identity. My passion is to share my knowledge about private self-hosted services as an alternative to currently available public services. I've worked in various environments in countries like UK, Czech Republic, Iceland, New Zealand, Australia, Malaysia and Indonesia and I'm self-sufficient in finding optimal solutions to the tasks in front of me.

- Website development - Wordpress CMS, React framework
- Self-hosted cloud services like encrypted private email, cloud storage, git, private password managers, CRM, etc.
- System administration (linux) and website hosting
- Graphical design
- Commercial Photography and Videography
- Marketing and SEO
- PC building, HW repairs
- Network infrastructure - wired/wireless installations, VLAN, VPN, Cisco IOS, OpenWRT, QoS, Network services

Technologies

- Docker, Kubernetes, Ansible, Python, Wordpress, React, SASS, HTML5, JavaScript, GIT, PHP, Nginx

References

- NejenHra, KolexCOM, IPPKID, Heritage Sixteen, Oxford Group, Skograek-tin

Research Assistant, University of Economics, Prague Management

Sep 2015 - Feb 2017

I've learned how to coordinate group of people working on various project at academic environment

- Communication with the government of Czech Republic
- University project management
- Coordination of student activities
- Maintenance of existing infrastructure

EDUCATION

2021 - 2022

Advanced Diploma of Leadership and Management
Albright Institute Melbourne

2014 - 2017

Ing. Cognitive Informatics
University of Economics, Prague

2008 - 2012

Bc. Informatics
University of Technology, Brno
